LOCAL AND GENERAL.

TO-MORROW will be a busy day for the majority of the local sons of Israel. It will be the Day of

THE Aquatic Sports in connection with the Victoria Recreation Club will be held on Thursday and Friday, opposite the Cricket Ground.

THE Japan Mail is strong on many subjects, but geography is its forte. New South Wales and Victoria are now in America, according to the oracle of the Jaos. WE beg to acknowledge receipt of the I. M.

Customs Gazette, No. 98, giving trade returns for all the customs ports of China for the second quarter of the current year. THE P. & O. S. N. Co.'s steamship Maiwa, with the next English mail, left Singapore for

this port at 5 a.m. to-day, and is expected here about 3 p.m. on the 24th inst. THE China Squadron is not expected to return southward from Japan until the end of October, after which, as usual, several of the vessels will

be recommissioned in Hongkong. MORE Japanese newspapers suspended for shall be Chairman? Of course, Dr. Doberck miners at Dowlais, in Giamorganshire. Ten exposing the rottenness of the enlightened Government of Dai Nippon. At this rate all pealed to the Governor at once, the journals in Japan will shortly be dead

Young Paulsen, the only European survivor of the crew of the ill-fated barque Florence Treat which was lost in the typhoon of the 8th inst. arrived here in the Thales this morning. He i under the care of the Rev. A. G. Goldsmith at present but will eventually be sent on to Australia.

LAST night Licut. Carcy, R.A., mot with a nasty accident at the Hongkong Club; he was on the first floor, waiting for the elevator to come u and was looking over into the shaft, when the cage, being above instead of below, as thought caught him on the head and cut hin rather badly. Medical assistance was soon obtained, and he is doing well.

THE band of the 1st Shropshire Light Infantry will play the following programme at the Officers' Mess, Murray Barracks, this evening, commencing at 8 o'clock :-

..... La Circarsienne "......Auber. Sacred Song..... Glory to Thee ".

LAST Saturday morning a prisoner engaged in "shot drill" in Victoria Gaol varied the mono-

tony by "putting the shot"-into the ribs of Capt. Lethbridge, governor of the gaol, who was doing the rounds. The prisoner was brought before one of the visiting justices, and pleaded that he wished on behalf of all the prisoners to protest against the increased stringency of the gaol rules. He was soothed with "three dozen."

A MERTING of subscribers for griffing for the next Race Meeting was held in the Hongkone Hotel this afternoon. Mr. T. F. Hough, Clerk of the Course, occupied the chair and although there was but a limited attendance, the fact that 29 ponies have been subscribed for clearly indicates that the love of sport has not yet been killed in Hongkong. As in former years it was unanimously decided that the Shanghai Horse Bazaar should be entrusted with the selection of ponies, subject, of course, to the approval of a representative of the Hongkong subscribers. Griffins will be supplied at the rate of \$150 per head, the primary condition being the covering of six furlongs in I min. 40 secs., 10 st. up.

AT the Magistracy to-day, before Mr. Wodehouse, the owners of the ferry launch Talbing were charged by Police Constable John Wilson with carrying an excess of passengers to the amount of thirty-rix. Mr. Grist, of Mr. C. D. Wilkinson's office, appeared for defendant. According to the evidence adduced it appeared that on the 17th inst. between 5 and 6 p.m., Constable Wilson was crossing over in the said launch from Houghong to Yau-ma-ti and noticing that she was greatly crowded he counted the passengers, with the result that he found that she had 122 passengers aboard exclusive of the crew, which numbered II. while her passenger certificate only allowed her to carry 86 passengers and a crew of 12. The charge was, of course, emphatically depled and evidence was brought in the shape of the captain of the launch and a friendly barber, to prove that at the time mentioned there were only seventy or eighty the Merthyr and Treharris collieries to dispassengers and a crew of twelve on board. Mr. | continue work. Wodehouse remanded the case for a few days that another witness for the police might appear, I meadlevies at Alderthet here been stepped.

An Emergency meeting of Zetland Lodge, No. 525, E.C., will be held in Freemasons' Hall, Zetland Street, on Thursday, the 21st instant, at 8.30 for 9 p.m. precisely. Visiting brethren are cordially invited.

ACCORDING to the Japanese Official Gazette, one thousand three hundred and eighteen cases of dysentery, of which three hundred and twelve terminated fatally, were reported at Osaka between the 20th of last month and the 3rd inst. Typhoid is also very prevalent in that country lust now.

WE have received a lengthy and very strongly worded communication from a lady correspondent in San Francisco, but which is not of sufficient public interest to justify its insertion in the Hongkong Telegraph. Jardine, Matheson & Co., the alleged Imuris Mines, a lost trunk, the Canadian Pacific Company, British justice in Shanghal-together with several other odds and ends, are mixed up in a most remarkable mauner. On the whole it is an interesting document, albeit a trifle disconnected.

THE old Victor Emanuel is decaying so badly that unless a new depot ship is very speedily work. provided there will soon be no depot to provide for. Her lower timbers are hopelessly rotten and beyond repair, and every foot of her takes in water like a sponge. Pumping has to be kept up almost incessantly, and the effect of so much bilge-water coming up is that already about thirty of the men are in the Naval Sanl- failures in America within the past week, as sickness is increasing at an alarming pace, besides which it is impossible to patch up the leaks so as to make the aged hulk anything like sound. She cannot be docked, as she would fall to pleces from sheer old age.

FATALITY ON H.M.S. "PIGMY."

H.M.S. Pigmy was out several days last week off the south side of the island, going through the usual quarterly gun-practice with all her armament. On Friday evening, one of the "ship's boys," a promising youth 17 years old, who seemed likely to make a fine able seamen in due time, met his death in a very sad manner. He was one of the crew four attached to a Nordenfeldt machine gun. and was standing at his post beside the piece when orders were given to knock off work for the day, and of course to put everything in order There were two cartridges still in the gun, though they ought to have been either fired off or drawn out before the gun was brought inboard; and in any case the firing-lever or trigger should have been locked. However, through some oversight the gun was left in this dangerous state, and was being brought into a fore-and-aft position preparatory to making fast for the night, when, in pulling it round, the lever was touched, and the two bullets struck the boy, one lodging in the right lung and the other passing clean through his stomach. He was at once attended to by the Pigmy's surgeon, and the gunboat returned to Hongkong harbour with all speed. The boy was taken to the Maval hospital the same evening, and everything possible was done for him. He lingered until Sunday morning, when he passed away quietly,

Gradients are steep on the Observatory Commission. First of all the barometer imped Governor naturally backed him up-for it was established in the Po Leung Kuk Commission, and maintained in the Retrenchment Commission, that every defendant ought to be his own judge, and every commission of enquiry into a criticised department ought to be under the control of the departmental heads. It is a wonder Sir William Robinson did not put Mitchell-Inner on the Treasury Commission as Chairman. Perhaps that genius would have made an even greater exhibition of insanity.

Then the question of recording the proceedings cropped up. It is the invariable practice, except in cases where special circumstances exist, to have Commissions supplied with a short-hand clerk to take verbatim notes of every meeting. But not for Doberck! He wished apparently to settle the minutes bimself—he could do it to his own satisfaction, and nobody else could. He was not going to have any shorthand if he could help it.

Barometer very low. Now the trouble has begun. Of course, the first witness whom the Commissioners wish to get evidence from is Dr. W. Doberck. But every time they ask him a question he has to say "Ob, I must got Mr. Figg," or Mr. Plummer, or-apybody rather than himself to answer. The report of that commission will be funny !

The strangers' galleries in the House of Commons were crowded this evening to suff-cation by persons eager to witness the last scenes in the report of the stage of the Home Rule bill. The proceedings of the evening were disappointingly tame. At II o'clock the Speaker began to put eighteen Government amendments standing in the name of John Morley, the Chie Secretary for Ireland. Only two of the eighteen were challenged by the opposition. In each

division the Government majority was 3%. When the amendm-nts were pronounced carried the Liberals and Irish burst out with loud and repeated cheers. The Opposition remained silent. The Speaker announced the third reading of the Home Rule bill for next Wednesday and the House adjourned.

At a Unionist meeting held at Otley, Yorkshire, the Duke of Devenshite arraigned the Government for attempting to pass the Home Rule bill. He said he would shortly be obliged to ask the House of Lords to reject the measure. He would then advance three reasons for throwing out the bill. The first was, the measure is irredcemably bad in principle and detail; second, the bill has not undergone the discus lon which its importance demanded, and third, it is not known whether the principle and details involved would

commend themselves to the electors. The Duke added that the House of Lords must refuse to pass the bill until it has been admitted to the calm and deliberate opinion of the nation.
